Swalwell Rinks Take Honors at Bonspiel

Swalwell rinks dominated play in the Carbon bonspiel last week and carried off top honors in the two main events.

Bill Waldron of Swalwell skipped his way to victory in the Merchants event, main attraction of the spiel, defeating the Len Poxon foursome in the final. Third place honors went to Koester of Rockyford and fourth prize was won by Pat Poole. Playing with Waldron were Noah Boese, Dave Jensen and Paul Fuller.

The Ed Gerlitz rink of Swalwell won the Ontario Laundry competition by defeating Kroschel of Beiseker in the final. Third prize went to the Leo Halstead aggregation and Pat Poole picked up another fourth prize. Playing on the winning rink were Bev Paget, skip, Herman Lammle, Ed Gerlitz and Wes Gore.

The Blue Ribbon event was won by Sam Garrett, who defeated Joe Appleyard in the final. Ted Schmidt placed third and Frank Pierson fourth.

Twenty-eight rinks were entered in the week-long curl-fest.

I. O. D. E. Provincial President Visits Carbon

The Duke of York Chapter I.O.D.E. was honored Thursday evening of last week with a visit from the provincial president, Mrs. P.P. Griffith, of Edmonton, and Mrs. Gourley of Drumheller. They were entertained at a pot luck supper held at the home of the regent, Mrs. J.A. Barr.

Mrs. Griffith gave an inspiring and interesting talk on I. O. D. E. work, making many valuable suggestions and answering numerous questions.

At the close of the evening Mrs. J.A. Barr, on behalf of the chapter, thanked Mrs. Griffith for her enjoyable visit and presented her with a bouquet of red carnations.

Alf Hoivik Elected To Council by Acclamation

Only one nomination for village councillor was made Monday to fill the vacancy caused by the retirement of Mayor E. Fox, whose term of office expires this month. Alf Hoivik was the only nominee and returning officer S. F. Torrance declared him elected by acclamation.

The new council consists of Councillors J. J. Forsch, H. J. Gimbel and Alf Hoivik. A new mayor will be appointed at the first meeting of the new council on March 5th. Councillor Hoivik will take the oath of office at this meeting.

The Bill Ross rink of Carbon won the grand aggregate of the Acme bonspiel Sunday afternoon at Acme by defeating Ban-nister of Three Hills 13-12 in a delayed playoff.

ODDITIES IN THE NEWS

A truck driver, of North Platte, Neb., was informed at the state weighing stations that his truck was overweight by 360 pounds.

"But I weigh that much," the driver protested.

He climbed on the scales. They registered 360 pounds.

The driver was sent on his way.

A rabbit with two tails was caught at Peterborough, England. One tail was in the normal place. The other sprouted from between its shoulders.

Providing only an automobile for a home was gross neglect of duty, Judge Julius M. Kovachy, ruled at Cleveland. On that ground, he granted a divorce to Bobbie Lee Robinson, 16, who said she lived in her husband's automobile from last May to September. Then she got fed up and went home to mother.

Girls of Dulverton, Somerset, Eng., were somewhat embarrassed. A farmer entered the cookery contest and walked off with first prize for his rock cakes.

Mrs. Virginia Nathile Brown, 29, of Detroit, won a divorce from her husband, an auto company executive, by testifying that he insisted they spend the first night of their honeymoon in his car to save money.

Exploration Of Gas In Alberta May Increase

CALGARY. — The provincial government's decision against the export of natural gas from Alberta at the present time probably will result in a record-breaking program of gas exploration in the province.

This was one of the things evident in the reactions of oilmen here to the government announcement.

Most oilmen expressed deep disappointment at the decision in off-the-record comments, although few had any statement to make until they had given more detailed study to Premier Manning's announcement.

Some expressed fear that Alberta's natural gas would be "bottled up here for a long time" and the lucrative Pacific coast market may be lost to Texas gas. The petroleum and natural gas conservation board's estimate of economically recoverable reserves of 4,439,000,000,000 cubic feet was thought to be conservative. Estimates at last year's hearing ranged from six trillion and up, about twice Alberta's needs for the next 30 years.

Leading gas searchers—Canadian Delhi, Pacific Petroleum, and McColl Union all expressed intentions of continuing as rapidly as possible their search for gas from the international boundary to northern Alberta.

Smiley Rabon, manager of Canadian Delhi, one of the applicants for gas exports said his company will "go ahead full steam" with its program for proving up gas reserves and deliverability.

The disappointment and surprise was reflected on the Calgary stock market, as shares dropped. Jumping Pound company stocks dropped from 49 cents to 30 cents immediately after the announcement but towards noon, there was marked improvement on the market.

MOSQUITO LARVAE LIVE UNDER ICE

WINNIPEG. — J. B. Wallis, naturalist, told the Natural History society he had found mosquito larvae and pupae, quite active, under a layer of ice half an inch thick at Churchill.

Mr. Wallis said he had made this discovery while doing insect research for the federal government mobile radar laboratories at Churchill. His colored films on the northland contrasted the stunted vegetation of Churchill with the heavier growth at more northerly Fort Smith, N.W.T.

EARN HIS MEDALS — Sergt. Jack E. Macy, 21, now in a U.S. naval hospital recovering from wounds he received in Korea, is most highly decorated living marine of the Korean war. He received the Distinguished Service Cross for returning under heavy fire to rescue three comrades and bring back the body of the fourth.—Central Press Canadian.

Funny and Otherwise

"I advertised that I would welcome the poor to my church," exclaimed the minister, "and after inspecting today's collection, I see that they have come."

A customer stormed into a butcher shop and flung down a piece of brass on the counter. "Will you please explain that?" he raged. "I found it in the ground round steak I just bought."

The butcher picked up the bit of metal and looked it over carefully. Then he scratched his head.

"Guess I musta forgot to take the collar off!"

"Do you believe in the precept—'Love Thy Neighbor'?" the judge asked the defendant charged with alienating the affections of his friend's wife.

"I certainly do," he replied. "But it sure got me into a lot of trouble."

"Look man, you have been really good to me, you have paid for the dinner, the theatre, and the drinks,—it's my turn now to be kind. Two five-cent fares please, conductor."

The rich man employs a butler, a valet, a secretary, a laundress, a cook, a housekeeper, two housemaids, a gardener and a chauffeur—the poor man just gets married.

In a crowded street car a very thin lady who sat next to an extremely fat lady remarked: "They really should charge by weight."

The fat lady replied: "But if they did, dearie, they couldn't afford to stop for some people."

A classified ad appeared in the Fairmont (Minn.) Daily Sentinel: "Notice—I will no longer be responsible for any debts contracted by wife, (Signed) L.B."

Just below it appeared a rebuttal ad: "Mr. L.B. does not have to be responsible for any debts I may incur . . . He can't even pay his own. (Signed) Mrs. L.B."

It happened at an old-fashioned revival meeting. The evangelist was the shouting type. After a long and vehement exhortation, he demanded of his congregation:

"All those who want to go to heaven, stand up!"

All rose quickly to their feet except one little man in the corner. The evangelist advanced on him, a glare in his eyes: "What!" he shouted, "don't you want to go to heaven?"

"Not immediately," replied the little man.

Manitoba Dealer Elected President Canadian Association

WINNIPEG. — Eric B. Gowler of Boissevain, Man., was elected president of the Canadian federation of farm equipment dealers.

Other officers named at the federation's annual meeting here: Mel M. Cunningham, Red Deer, Alta., first vice-president; James Dryden, Toronto, second vice-president; D. R. Ferguson, Rocanville, Sask., third vice-president, and Arthur A. Wilkes, Toronto, executive secretary.

The queen termite may live for a hundred years and lays more than 30,000 eggs a day.

Many Motorists Lose Licenses In Manitoba

WINNIPEG.—In the first five years' operation of Manitoba's Safety-Responsibility law of the highways, 3,717 motorists have been banished from the roads, possibly for good.

Some of them have a remote chance of getting back their driving privileges but only if they are able to get insurance companies to accept them as a risk. At the moment, the black marks on their driving records are too many to warrant the companies accepting them as a risk. Failing to get sufficient insurance to guarantee their financial responsibility in case of accident, their alternative is to deposit \$11,000 in cash or its equivalent with the Provincial Treasurer.

The 3,717 banishments from the roads represent about 41 per cent. of all suspensions since the law became operative Dec. 1, 1945. At end of 1950, there had been a total of about 9,000 suspensions. Many of them have been able to re-instate themselves as operators of motor vehicles.

The past year there were 1,782, about 148 a month. There are now 719 back on the highways on probation, and subject to good driving conduct and favorable records they will be restored permanently.—The Financial Post.

No. 110 City of Toronto Squadron arrived in the United Kingdom February 25, 1940.

Britain Buying U.S. Apples

WENATCHEE, Wash.—Great Britain will get 150,000 boxes of apples from Washington and Oregon growers.

The shipments now are being prepared and will be loaded in ships at Portland and Seattle.

The British buyers are paying \$2 a box delivered to the ship.

Mrs. Guy Lombardo Compares Blue Bonnet — Always Puts It On!

Here's a hint from Mrs. Guy Lombardo. Compare BLUE BONNET Margarine with any spread at any price. Like the band leader's wife, you'll love BLUE BONNET's fresh, sweet flavor! Rich nutrition! Real economy! BLUE BONNET is Canada's fine quality all-vegetable margarine. Use BLUE BONNET in cooking, on vegetables, as a delicious spread. Buy BLUE BONNET and get "all 3" — Flavor! Nutrition! Economy—e!

Blue Bonnet margarine is sold in two types — regular economy package with color wafer and also in the famous YELLOW QUICK bag for fast, easy color.

WORLD WAS ALMOST ON TIME

But War Prevented U.N. Adoption Of Better Calendar

By HENRY C. NICHOLAS
(CPC Correspondent)

WASHINGTON. — The arrival of the new 1951 calendar serves to illustrate again the inability, so far, of the world to agree upon the number of days in a month, or the length of an hour, a day, or a year. Man has been continuously changing his way of measuring time since the dawn of recorded history.

Had it not been for the Korean war it is believed the United Nations would have recommended the adoption of a world calendar as of Dec. 31, 1950.

Seventeen nations, including those as far apart in their political views as Argentina, Japan, China, Australia and Turkey, had given formal approval to the adoption of the world calendar.

The United Nations was waiting for the formal approval of one of the major nations before recommending the adoption of the world calendar. The United States had accepted the invitation and a measure, which was being considered by the Senate, would have given United States approval of the world calendar.

The changeover could readily have been made this year since on Dec. 31 the Gregorian calendar (now in use) and the world calendar coincide. A similar favorable opportunity will not recur until 1956.

The ancient Hebrews did not divide their day into hours. The day-time was divided into four parts. Later when the Hebrews came under the control of the Romans they followed the Roman policy of dividing the daytime into 12 hours.

However, their hours were not like our hours of 60 minutes each. Their first hour began with the sunrise and the last hour ended with sunset. The days and thus the hours were longer in summer and shorter in winter.

In Palestine the hours varied during the year from as little as 49 minutes in the winter to as much as 79 minutes in the summer. This was the first, and it proved to be an efficient, method of daylight saving time.

In the early Nineteenth Century there was no standard system of time in North America. Most of the larger cities measured their own time and seldom agreed with each other.

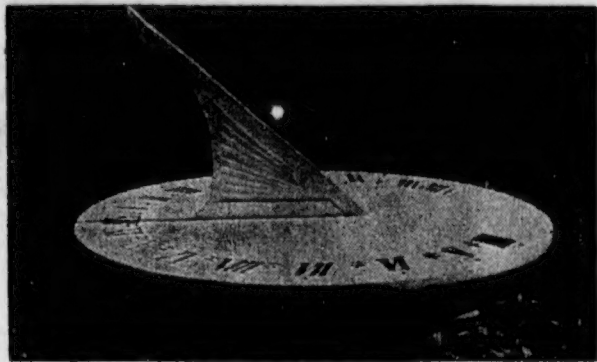

In Philadelphia the time was about four minutes slower than in New York, a fact that was later responsible for an unending stream of vaudeville jokes.

It was not until 1830 that the present four time zones, Eastern, Central, Mountain and Pacific, were recognized.

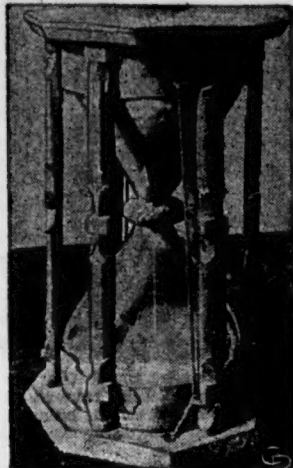

Observatories measure our time from the sun and it is known as solar time. For our purpose solar time is excellent, but it is not accurate.

The only accurate measurement of time, and even this is questioned by science, is sidereal time, which is the time used by astronomers. Sidereal time is based on the movements of the sun, moon and earth in relation to one another and the stars.

Our solar time is about one-quarter

Two ancient methods of calculating time are the sun dial, above, and the hour-glass, below.—Central Press Canadian Photos.

ter of a day shorter in the course of a year than the more accurate sidereal time. We try to correct this difference by giving our year an extra day every four years.

Even with the addition of this one day to our year it is not in complete agreement with sidereal time. There has been an accumulated shortage since 1582 of about 14 minutes. We are told by astronomers that about

S.A. Fishermen's Income Reaches \$6,200 A Year

CAPETOWN.—South Africa, the country where something always "turns up", is enjoying a gold boom in the Orange Free State, and a wool boom and a less-publicized fishing boom on the Cape's western coast.

The tin shanties that used to make up the little Cape Province fishing hamlet of Veldrift are being shouldered aside by modern houses, garages and factories. Neon lights flash where candles used to gutter.

Veldrift has struck it rich in the waters of the Atlantic, and swarming fish shoals have rocketed fishermen's incomes from \$124 to \$6,200 a year.

The fishermen are buying new boats, new cars, and new houses and are allowing themselves the unheard of luxury of trips to Capetown.

But they have sounded a warning note to the authorities. "Unless the shoals are protected during the spawning season, they say, the boom will turn into a bust."

3,000 years from now it will be necessary to have one year with a double leap year to adjust the difference between the two times.

Our calendar consists of months that vary in length from 28 to 31 days, thus providing four varieties of months. But on consulting the Nautical Almanac we find there are five kinds of months and not one of them corresponds to the calendar month.

There is no agreement as to the length of the "year" or the "day". The Nautical Almanac lists four different years which vary in length, the tropical, sidereal, anomalistic and eclipse.

We have two lengths for the day, depending on whether we measure it as the elapsed time between two successive passages overhead of a star or of the sun.

For more than a century scholars, business men and statesmen have urged the adoption of the world calendar, in which the quarters and months of the year are equalized and the days of the week and dates always agree. In the world calendar every month would have 28 days plus Sundays, with every year beginning on a Sunday.

One More Cherished Belief Exploded

One of MacLean-Hunter's editors lives in Pickering township, a rural area northwest of Toronto. Recently he had to be away overnight. His wife, when she retired, being alone in the house, left two or three lights burning.

Next day, in the village store she met the wife of a neighboring farmer. The farm wife said a very funny thing had happened that morning. Her husband had got up and dressed; got her up to start breakfast, and was just leaving the house to do chores when he glanced at the clock and discovered that it was just 4 a.m. So they went back to bed.

"You see," said the farm lady, "it's dark in the mornings. We lean out of bed and look out of the window to see if your lights are on. If they are we know it's time to get up."

Thus another of our cherished beliefs is exploded. Since childhood the farmer has been held up to us as the supreme model of early rising.

During the 18th century French women wore lightning rods on their hats.

Tips On Prize Cooking Given By Fair Judge

SASKATOON. — If you want to win a cookery prize at some summer fair, take a tip from an expert who knows what makes the judges tick.

A butter cake, for instance, should be golden brown, evenly risen, with texture looking like a good sponge. And a loaf of home-made bread should have a crust not more than one-eighth of an inch thick, be tender and crisp, of a creamy color, free from cracks and bulges.

That's what Miss Margaret Pattillo of the University of Saskatchewan's extension department told a meeting of women fair exhibitors.

First she explained the general baking score card used by the judges. This shows that points are given for shape, crust, texture, mixture, color, lightness, flavor and odor.

A butter cake, she said, should be slightly rounded, fairly light and moist. It should be tender but must not crumble, and there should be no "tunnels" in the mixture.

There should also be no sugariness and if the crust is crisp and shiny it is a sign that too much sugar has been used.

On the other hand, angel food is expected to be level and not risen in the centre. The crust must be tender but must not crumble. It must be more elastic than a butter cake.

A stern test of a cook's ability, she said, is in making muffins. Appearance and shape of these is important. There is a danger of over-mixing, causing them to rise in peaks.

Bran muffins are a cinch compared with straight muffins, Miss Pattillo maintains.

Biscuits are tricky, too, and she stressed that they should not have a coating of egg when put into pans. This did not meet with the favor of judges since it could hide evils.

Biscuits should be evenly risen, flat on top, flaky, with top and bottom crusts thin.

"Watch you don't get the flavor of baking powder or salt," Miss Pattillo warned.

Discussing bread, she said a good loaf should have not more above the tin than in it. Judges looked for an even golden brown color, lightness, a sweet and nutty odor, and a fine grain with no big holes.

If pastry is cooked quickly enough the lower crust of a pie should not be soggy, she said. A fruit filling should not be too thick, and a cream filling should bulge slightly.

Good pastry must be flaky, and

SALVATION ARMY

One Army That Should Never Be Disarmed

MONTREAL.—Air Marshal W. A. Bishop, V.C., C.B., D.S.O., M.C., D.F.C., E.D., LL.D., recalled Lloyd George's famous words about The Salvation Army. "That," said Britain's first world war prime minister, "is one army I would never disarm." The Air Marshal, as national advisory board chairman of the Salvation Army, used the phrase when announcing that the dates of the 1951 national Red Shield Appeal had been set for May 1-21. Objective for maintenance requirements will be \$1,500,000.

"Not only should the Salvation Army never be disarmed," Air Marshal Bishop declared, "but it should be armed and rearmed with all the weapons it needs for the alleviation of human distress and suffering." All Canadians would, he felt, show practical agreement with this suggestion in their support of the 1951 appeal.

"The Salvation Army is the world's one and only truly international army," Air Marshal Bishop said. "Their ministry of mercy has joined together people of all races and tongues in 97 countries and colonies. They are an example to the world in spiritual brotherhood."

In Canada a number of new institutions and several extensions were erected in 1950. These imposed not only heavy capital expenditures but involve increased maintenance costs to be raised. All Salvation Army enterprises seek, as far as possible, to be self-sustaining, the Air Marshal said. Otherwise Canada would be the poorer by almost 100 social service institutions across the country. All the Canadian public is asked is to meet the deficit on operating costs, he explained.

Air Marshal Bishop said there were many reasons for the Salvation Army conducting its own identified national appeal. Most Canadians, he thought, realized that the very shape of Salvation Army activity puts it beyond community boundaries. All aspects of Salvation Army social service cannot possibly be carried on in every centre, but institutions must be located strategically so as to serve the entire nation, he said.

Air Marshal Bishop announced that Mr. W. J. J. Butler, of Toronto, would again head up the national publicity committee. "Hope for the hopeless" has again been chosen as the campaign theme and publicity through all media will be built around this slogan.

she had a word of advice about meringue. If drops of syrup appear, it has been cooked too quickly. For best results she recommended beating the sugar with the egg.

On The Side : By E. V. Durling

What period was the all-time low in your money earning career? Did you pull out of the slump gradually or with a rush? In nineteen hundred and eight, Somerset Maugham was so shy of cash he wasn't eating regularly. But he kept on writing and then suddenly in that same year he found himself with four of his plays running in London at the same time.

Guilty Of Coprophonia

Do you know what coprophonia is? I didn't until just now when I saw it defined as "the practice of swearing over the telephone." I never swear over the telephone. Well, hardly ever. I may have now and then uttered a couple of naughty words after rushing to answer the phone only to find somebody had the wrong number and didn't even say: "I'm sorry."

Buffet Dinners Preferred

Have always favored a buffet supper over a formal dinner party. Am thereby pleased to note that a celebrated authority on etiquette and party giving expresses a similar preference. A buffet supper affords the guests a chance to relax. Formal dinner parties often develop into tense occasions. Then when a buffet is featured the guests have a better opportunity to mingle. They are not stuck between the two same persons for most of the evening.

She Likes Pets

It is claimed Mellicent Rogers of Ingham, England, is the world's greatest animal pet enthusiast. As pets, Mrs. Rogers has 50 cats, 30 goats, 7 dogs, 7 donkeys, 30 geese, 40 chickens, 12 golden hamsters, 1 sheep, a seagull and a white mouse.

Forgotten Men

Blondin, the famous trapeze performer, walked across Niagara Falls on a tight-rope carrying a man on his back. Of course, you know that. But what was the name of the man Blondin carried? Seems to me he was the real hero of the episode. It is to be regretted that a fellow displaying such courage and such confidence in a friend's ability should be a forgotten man. . . . Robert Hardy, celebrated British barber, who could shave a man in thirty seconds, once wagered he could shave a man blindfolded. He won the wager. And thus added to his fame as a tonsorialist. But the name of the man he shaved is forgotten. For how much would you let a blindfolded barber give you a shave with a straight razor? As for me, I wouldn't do it for a million bucks.

Parking Made Easy

Why is it so many women have so much difficulty in parking a car properly? One theory is that their clothes are too tight. This prevents them from turning around as much as they should for good parking. Anyway, there are some gadgets on the market that do away with the necessity of excessive turning around while parking. A good one is called "the parking eye." There is also a wide driving mirror that enables a motorist to see to the rear and to both left and right without turning the head.

Psychiatric Joke

A medical secretary says she is assembling a collection of stories about psychiatrists and asks if I know any. Well, there's the one about the psychiatrist who asked the patient what he dreamed about. "Playing baseball," said the patient. The psychiatrist asked: "What else?" The man said: "Nothing else, I just dream about playing baseball." Then the psychiatrist said: "Don't you ever dream about girls?" The man screamed: "What, and lose my turn at bat?"

TRY AND STOP ME!

By BENNETT CERF

A railroad executive tells a story of the seedy looking gent who stumbled into a parlor car, and obviously held a ticket for the seat directly opposite a very correct lady, with a Boston accent, and a bespectacled little girl on her lap, who looked just as disapproving and superior.

The lady obviously found the proximity of the seedy gent highly objectionable. In fact, she took the extraordinary step of leaning across the aisle and whispering, "I think you should know that my little girl is just recuperating from a bad case of small-pox, which is still probably contagious."

"Don't let that worry you for a moment," said the seedy one mournfully. "I'm going to cut my throat in the first tunnel anyhow."

Everything happens in California. In a local golf tournament there two summers ago, for instance, a finalist had to win the thirty-sixth hole to tie up his match. Sinking a long putt would do it for him.

The golfer's aim was true, but unfortunately, the ball stopped on the very edge of the cup. The audience sighed with disappointment, and the loser started to cross the green to congratulate his opponent, when a tremor shook the earth. Dishes and window panes in the club house rattled—and the golfer's ball plumped into the cup! There being nothing in the rule book covering earthquakes, our hero was credited with the hole and went on to win the championship on the thirty-seventh!

BROTHER AND SISTER HANDSHAKE—India's ambassador to the United States, Madame Vijaya Lakshmi Pandit greets her brother, India's Prime Minister Jawaharlal Nehru, in native fashion by touching her hands together. The famous couple met at a reception for the Indian prime minister in London.—Central Press Canadian.

U.S. TRIES TO COLLECT FROM RUSSIA—The U.S. is now engaged in a campaign to get payment in full from Russia on the \$11,000,000 lend-lease World War II account. Negotiating on settlement are Russia's ambassador, A. S. Panyushkin, (left), and former U.S. ambassador to Iran, John Wiley.—Central Press Canadian.

NEW KING MAKES HIS DEBUT—King Gustav VI Adolf is shown seated on the throne in the hall of state as he officiated at the formal opening of the Swedish Riksdag (parliament). The new king made his first speech from the throne during the ceremony, which was opened with divine service at the royal chapel.—Central Press Canadian.

HIRED TOWN HALL FOR FAMILY REUNION—"Like the old woman who lived in the shoe and had so many children she didn't know what to do," Mr. and Mrs. William Wood of Beaverton, Ont., with 65 descendants in all; had to hire the town hall for their reunion party. Married for 58 years, their descendants consist of seven children, 39 grandchildren and 14 great-grandchildren.

IS THIS THE START?—Despatches announced that Pete Babando, 25-year-old, American-born winger of Chicago Black Hawks, has been called for his draft physical. Babando, born in Braeburn, Pa., is unmarried. He is the first professional hockey player to receive the war-calls, but may not be the last.

Golden beards were popular among eastern princes. Kings of Persia wove gold thread and spangles into their beards.

"AMONG MY SOUVENIRS"—Among the souvenirs which Cpl. Everett Butler of Woodville, Ont., brought back from Korea was this 400-year-old Korean mirror, with reverse side of polished metal, which Fraser McIntyre and Sharon Mayers are seen admiring. Butler's return home is aftermath of a two-months-long stay in Korea, where his 345-man company, Royal Canadian Regiment, was sent as an advance party to pave the way for Canada's special brigade.—Central Press Canadian.

KILLED IN KOREA—A training accident near Pusan, January 17, took the life of Sgt. Major James Deans Wood, 35, (above), of Calgary, the first fatal accident among Canadian troops since their arrival in Korea. Wood, a company sergeant-major in the 2nd Bn. Princess Patricia's Canadian Light Infantry, died of wounds shortly after an accidental detonation while demonstrating the use of high explosives. A permanent force soldier, he had won the Distinguished Conduct Medal in October, 1944, for extreme gallantry while helping the Princess Patricia's establish a bridgehead across the Savio River in Italy during the Second World War. A native of Ranfurly, Alta., he is survived by his wife, Mrs. Mary Norma Louise Wood, of 637 14th Ave. West, Calgary.

—Central Press Canadian.

"GIRDING" FOR PEACE—Despite the threat of world conflict, work is going forward optimistically on the site of the United Nations headquarters in New York city. The steel girders in foreground are for the U.N. general assembly building. Seen through them is the completed U.N. secretariat building, rising skyward like a monument to the hopes of men for world peace.

U.K. AIR CADETS LEAVE FOR CANADA—The first contingent of cadets of the Royal Air Force scheduled for a period of training in Canada are inspected by Arthur Henderson, British air minister, as they prepared to leave Britain by air. Two hundred cadets are in the group scheduled for training here.—Central Press Canadian.

OPTIMISM THAT PAID OFF—When the \$27,000 community centre of Blyth, Ont., was started last year, there was \$69 in the treasury. But that didn't deter residents of the town and the surrounding area. They built, collected and borrowed cash as they went along and recently opened the metal building, 194 feet long and 85 feet wide, with the word that the hockey rink will soon pay for itself and the rest of the building in a few years. Here the building committee take a last look at the building plans which have become a reality.—Central Press Canadian.

IT'S PART OF THE ARMY ROUTINE—Paris-bound, U.S. W.A.C. Maxine Powell, 21, is well loaded down with equipment as the cameraman catches her at Grand Central station, New York. The first W.A.C. to be assigned to the supreme headquarters, Atlantic Powers in Europe, she will be stationed at the Paris headquarters of Gen. Dwight D. Eisenhower, Allied Pact Nation commander.—Central Press Canadian.

Conducted by Lloyd "Ace" Percival

The "Charley Horse" Nightmare

Charley horses are possibly the most common of all athletic injuries, particularly in sports such as hockey which involve heavy body contact. Many an important game has been lost and many a scoring championship missed because a star player has been sidelined by such an injury. Syl Apps, famous Toronto Maple Leaf center, was idled several times during the final two years of his career by charley horses, and as a result lost two excellent opportunities to win the N.H.L. scoring title.

A charley horse is actually a bruised muscle, usually located in the front of the leg between the knee and the hip. The most common cause is hard contact with some object such as the toe of a boot, a goalpost or a knee.

Since these muscles play an important part in leg movement, a charley horse can slow you down considerably. However, such an injury will not cause nearly as much trouble if it is properly treated.

First, don't nurse a charley horse. Keep using it as much as you can. The more walking you can do on a bruised muscle, the less it will stiffen up, and the faster the body can do its job of healing. This is particularly important right after the injury has happened. However, first make sure that it is nothing more than a bruised muscle.

Do not give a charley horse hard rubbing or kneading. Heat is the best medicine. Some Analgesic Balm, obtainable at any drug store, can be made into an "Analgesic Pack", which is the ideal treatment for a charley horse.

While you are buying the balm, purchase some medicated cotton batten, some two inch gauze bandage and some adhesive tape. Then spread the Analgesic Balm over the injured muscle with a knife, like butter, until it is about one quarter of an inch thick. This layer of balm should cover an area about two or three inches around the actual injury.

Now place a thick layer of cotton batten on top. Bandage it firmly with gauze, and fasten the pack securely with adhesive tape. This pack can be worn throughout the day, or left on all night. Its purpose is to supply additional heat which will enable the body to heal the injury faster.

If your leg is bruised severely, use

Frances Langford
Compares Blue Bonnet
—It's Her Favorite!

Here's a hint from Frances Langford. Compare BLUE BONNET Margarine with any spread at any price. Like the famous vocalist, you'll love BLUE BONNET's fresh, sweet flavor! Rich nutrition! Real economy! BLUE BONNET is fine quality all-vegetable margarine. Use BLUE BONNET in cooking, on vegetables, as a delicious spread. Buy BLUE BONNET and get "all three" — Flavor! Nutrition! Economy! — Flavor! Nutrition! Economy! — Blue Bonnet margarine is sold in two types — regular economy package with color wafer and also in the famous YELLOW QUIK bag for fast, easy color.

KITCHEN MEDITATIONS

By JANE DALE

MIRACLES

You don't believe in miracles, I've often heard you say. You'll credit only proven facts as you journey on your way. You'd have an explanation if the rivers ceased to flow; or if mountains moved about, or stardust turned to snow. You would go scientific if a man became an ape; and if a horse became a cow, you wouldn't even gape.

You may have your theories and your facts all true and true; and all your explanations of the wonders that we view. But I believe in miracles, wrought by an unseen hand; the stirring of the springtime within a frozen land; the perfectness of nature, in flower and bird and tree. And too — all little creatures hold forth a Truth for me! 2919

World Happenings Briefly Told

A thief who smashed and looted a window of Kroch's Michigan avenue book store in Chicago passed up the most expensive item on display. It was a \$40 edition of the Bible.

Alberta, expanding rapidly as a result of rich oil discoveries, easily won top honors among the provinces for having the largest increase in marriages and birth rates in the first 10 months of last year.

Winnipeg's oldest citizen, 106-year-old Henry Timlick, died recently in a nursing home. He would have been 107 March 4. Mr. Timlick was born on a farm at North Augusta, Ont.

The need of a town hall was stressed by Mayor H. F. Biele, of The Pas, Man., at the year's first meeting of town council. The 39-year-old town is still without a building to house municipal offices but it is hoped to erect one in 1951.

Canada's oldest triplets have celebrated their 86th birthday. The three, born on a farm a couple of miles north of Palmerston, Ont., in 1865, are James and John Bent of Palmerston and Mrs. Naomi Corbett in Swift Current, Sask.

A record 1,400,000 new homes were built in the United States in 1950, the bureau of labor statistics reported. The previous high was 1,025,100 homes built in 1949. Before that, the peak had been 937,000 in 1925.

SUMMER HOLIDAYS?

A salesman was sent to Alaska by a firm well known for its miserly practices. Some days after he had left, his office received a wire from him, reading: "Ship icebound off coast. Situation looks bad. May not get through for some time." The manager of the firm immediately sent a reply: "Don't worry. Start vacation as of today."

100 publications containing coaching advice in all sports will be sent to you with your membership card. This training material, widely recognized as the finest of its kind in the world, is available no where else.

A regular Sports College broadcast carries additional coaching and advice from famous athletes every Saturday afternoon. Look up the time and station in your area.

Western "A" Fairs Accept Bid For Grandstand Shows

WINNIPEG.—Western Canada Association of Exhibitions in closed session accepted the bid of the Ernie Young agency of Chicago for the grandstand attraction for Class "A" fairs. There were three other bids.

The Class "A" fairs are at Calgary, Edmonton, Saskatoon, Regina and Brandon.

Weekly Tip

COATING FOR CONCRETE

Concrete floors and wall surfaces can be protected from scaling, checking or dusting by applying a synthetic moisture-repellant coating. It dries in three to four hours and has a glossy finish.

"Men are only grown-up boys."

They're amazing good

Made with Amazing New Fast DRY Yeast!

JELLY BUNS

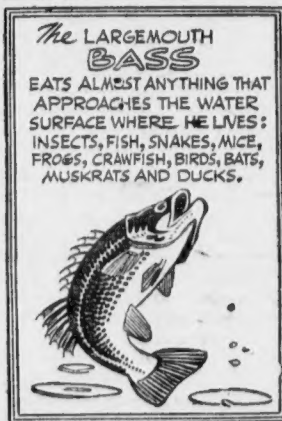

Measure into small bowl, 1 c. lukewarm water, 2 tps. granulated sugar; stir until sugar is dissolved. Sprinkle with 2 envelopes Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 min., THEN stir well. Cream ¼ c. shortening; gradually blend in 1 c. granulated sugar, 2 tps. salt, 1 tsp. grated nutmeg. Gradually beat in 2 well-beaten eggs. Stir in ½ tsp. lemon extract, ½ c. milk which has been scalded and cooled to lukewarm, and yeast mixture. Stir in 3 c. once-sifted bread flour; beat until smooth. Work in 3 c. more once-sifted bread flour. Knead until smooth and elastic; place in greased bowl and brush top with melted butter or shortening. Cover and set in warm place, free from draught. Let rise until doubled in bulk. Punch down dough and cut into 36 equal portions; knead into smooth balls. Brush with melted butter or margarine, roll in fine granulated sugar and arrange ½" apart on greased baking pans. Cover and let rise until doubled in bulk. Twist the handle of a knife in the top of each roll to form an indentation; fill with jelly. Cover and let rise 15 min. longer. Bake in moderately hot oven, 375°, about 18 min.

• No more disappointments because the yeast has spoiled! Fleischmann's Fast DRY Yeast replaces old-fashioned perishable yeast because it keeps fresh and full strength — right in your cupboard! For fast-rising dough and grand oven results get Fleischmann's Fast DRY Yeast to-day!

Alaska Bids For Metal Development

By LOUIS R. HUBER
(CPC Correspondent)

JUNEAU, Alaska.—"Come up north for strategic minerals, if you want a supply you can count on." That's what Alaska mining men are saying, these days.

"All the tin in Malaya and all the chromium in South America won't be worth a thing unless they can be delivered," observes the Forty-ninth Star, weekly newspaper of Anchorage. "Alaska can guarantee delivery, with no fear of a change in commitments due to changing world conditions."

The newspaper cited chromium production during World War I on Kenai peninsula near Seward, and added:

"It might cost \$10 million to mine chromium ore on Kenai peninsula worth only half that, but if the Alaska chromium ore is essential to strengthen the nation, reckoning of its cost becomes a secondary matter."

Meanwhile, attention has been focused on a valuable iron-ore deposit at Sentinel Point, about 50 miles south of Juneau. W. S. Pekovich, well-known Alaska mine operator, has examined this ore body and declares it contains around eight per cent. of ilmenite, the ore from which the new metal titanium is made.

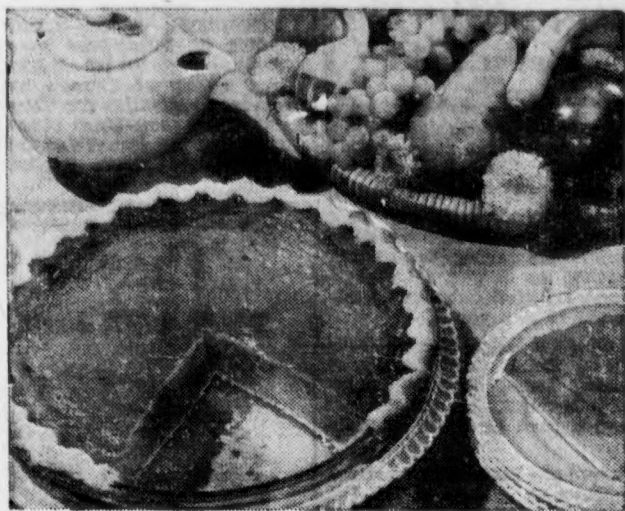

Forty per cent. lighter than steel, titanium can be used in many places where stainless steel is now used—in airplanes, tanks and armament.

Preliminary explorations indicate the Sentinel Point ore deposit covering about four square miles, contains more than three-quarters of a billion tons of magnetite or primary iron ore.

This compares well with the 300,000,000 tons now considered proved in the Labrador deposits and the two billion tons in the Venezuelan Cerro Bolivar deposits.

The Labrador and Venezuelan iron ores are known as hematite, like the ore of the Mesabi range of the Lake Superior region, which is now nearly exhausted. But the Labrador and Venezuelan deposits require construction of railroads in order to get the

: Selected Recipes :

The Golden Carrot Pie is comparatively a newcomer to the big pie family. It is similar to those made of squash, pumpkin or sweet potatoes, but with a distinctive flavor and pleasing texture that only carrots can give. Make it for your next company dinner and listen to compliments from your guests and family. Cranberry-Banana Pie is another newcomer that is worth praises. Try these recipes on the family, then sit back and wait for the compliments!

Golden Carrot Pie
One half cup sugar, 1/2 tsp. salt, 1 tsp. cinnamon, 3/4 tsp. ginger, 1/2 tsp. nutmeg, 2 cups mashed cooked carrots, 1/4 cup cooking molasses, 3 eggs, 2 tbsp. butter, 1 cup top milk, unbaked pastry for 9-inch pie.

Heat oven to 400 degrees F. Mix first five ingredients, add carrots, molasses and eggs. Melt shortening, add to mixture, then stir in milk. Pour into pastry-lined pie pan and bake 45 minutes or until knife inserted in center comes out clean.

ore to docks for shipping to United States steel mills. And, on the high seas, the ships carrying the ore could be targets for submarines.

The Alaska deposit is magnetite, a form of iron ore requiring a more elaborate smelting procedure; but with the increased urgency for iron ore, and the availability of this ore at tidewater, its mining could be economically attractive.

Famous chiefly for its gold mines, Alaska has commenced a swing to semi-precious—but strategic—minerals. Like the 100 tons of cassiterite (tin-producing ore) shipped from near Nome last summer. For several years platinum has been mined profitably on the Bristol Bay shore.

Alaskans complain that the northland's non-gold mineral production is pathetic. That the territory is capable of producing much, much more. They point to the recent report of Dr. John C. Reed, chief of the United States Geological Survey's work in Alaska.

"Only 0.3 per cent. of Alaska has been mapped on scales suitable for detailed analysis of the geologic features that pertain to mineral exploration, and only 3.2 per cent. on a scale adequate to permit even semi-detailed analysis of such features," says Dr. Reed.

SMILE OF THE WEEK

FREE BUS

One Wife: "How do you get money out of your husband?"

Another Wife: "Oh, I say I'm going back to mother and he immediately hands me the fare."

Helpful Hints

A blanket stays clean longer if the sheet turns back over it eight to 12 inches. If the sheet is too short, a strip of cloth may be basted over the top of the blanket, or a covering used over the blanket. Even a third sheet used on top protects it from soil and gives added warmth because it holds air.

When the egg whipper or meat grinder develops a squeak and requires some oil, stop it with either glycerin or mineral oil. Neither will in any way affect the food should a drop get into it.

If you have heirloom buttons, wash them with warm, soapy water and a soft brush, working suds into carvings and intricate designs. Then put the buttons on a dress or suit and have a pair of them made into earrings.

To peel oranges easily, pour boiling water over them and let stand 5 minutes. The white covering will come off with the skin.

Cranberry Banana Pie

One cup cranberry sauces, 3 egg yolks, well beaten, 1 tbsp. cornstarch, 1/4 tsp. salt, 2 tbsp. butter, 1 tsp. vanilla or almond extract, 3 ripe bananas, 1 baked 9-inch pie shell.

Mix together egg yolks, cornstarch and salt. Add hot cranberry mixture slowly, stirring constantly. Remove from heat and add butter and flavoring. Cool and cover bottom of pie shell with small amount of cooled filling. Peel bananas and slice into pie shell. Cover immediately with remaining filling. Pile meringue on filling and bake in moderately slow oven (325 degrees F.) about 15 minutes or until browned.

Meringue

Three egg whites, 6 tbsp. sugar. Beat egg whites until stiff. Add sugar gradually and continue beating until mixture will form peaks. Makes enough meringue for 1 9-inch pie.

CLEAR WAY FOR DEVELOPMENT OF POTASH INDUSTRY

SASKATOON.—Saskatchewan has cleared the way for private capital to develop Canada's first potash mining and processing industry.

Resources Minister J. H. Brockelbank recently announced regulations under the mineral resources act for leasing crown-owned potash rights to private concerns.

The regulations provide for issuance of exploration permits; leasing of mineral rights on a 21-year renewal term; reservation of areas as mineral reserves; and royalties.

Potash, used mainly in chemical fertilizer, is also used in the manufacture of explosives, matches, medicines, paints, soaps, glass, dyes and paper.

Canada has had to import all her potash—an estimated \$4,000,000 worth annually—from the United States and Europe. Most of the world's supply now is produced in the Soviet zone of Germany.

Saskatchewan potash was found during oil drilling in the Unity, Biggar and Yorkton areas. All discoveries so far have been on crown-owned land.

Under the regulations, a maximum of two exploration permits for up to 100,000 acres each may be issued to one applicant. Requirements include

Mercury Mine May Reopen In British Columbia

FINCHI LAKE, B.C.—The ghosts of war are lurking around this deserted village in northern British Columbia.

An all-time high price for quicksilver may mean reopening of North America's only major mercury mine here.

During the last war, Finch, owned by Consolidated Mining and Smelting company of Trail, B.C., was the only large supplier of the vital metal to the allied cause.

When the war ended and mercury prices slumped sharply, it was unprofitable to mine mercury from the big but thin-grade deposits, and the operation was shut down.

Mercury, used in the manufacture of explosives, now has hit a record price in world markets. Finch may be reopened as the tempo of defence preparedness accelerates.

Consolidated has not made any announcement about the property but the company recently allocated \$15,000,000 for expansion projects in B.C. Some of this may go toward a new start at Finch.

Finch Lake, located northwest of Prince George, was a "hush-hush" project during the war because it was the major source of mercury for explosives for the allies.

After the war, mercury prices skidded to \$70 a flask of 76 pounds. Company officials said it cost \$108 a flask to produce it. However, the price now has risen to \$233.50 for a flask. It jumped more than \$43 a flask in one day at New York.

Since the war, the village of Finch, which had modern stores, hotels and movie theatre, has been all but deserted.

GEMS OF THOUGHT

PREPARATION

It is impossible you should take true root but by the fair weather that you make yourself; it is needful that you frame the season for your own harvest.—Shakespeare.

What stubbing, plowing, digging and harrowing is to the land, that thinking, reflecting, examining is to the mind.—George Berkeley.

Get away from the crowd when you can. Keep yourself to yourself, if only for a few hours daily.—Arthur Brisbane.

One's first lesson is to learn one's self; having done this, one will naturally, through grace from God, forgive his brother and love his enemies.—Mary Baker Eddy.

Promise yourself . . . to give so much time to the improvement of yourself that you have no time to criticize others.—Christian D. Larson.

Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth.—II Timothy 2:15.

THE TILLERS

—Central Press Canadian.

ROMANCE BLOSSOMS IN KOREAN WAR—Pte. Raymond Lapointe of Ottawa, a member of the Special Force advance party in Korea, had to leave his bride of a few days recently when he returned to Fort Lewis, Wash., on completion of his duties in the Far East. In an international wedding on Christmas Eve, Raymond was married to a Swedish nurse, Lt. Gull. Gunnarson of Gothenburg, Sweden. His bride will remain with her unit until February when she will return to Sweden to make arrangements for her journey to Canada.

B.C. Produces 55 Per Cent. Canada's Hop Requirements

VANCOUVER.—British Columbia's Fraser Valley now produces enough hops to supply 55 per cent. of Canada's brewery needs, Clinton L. Jennings of New York, vice-president of Canadian Hop Growers Limited, said during a visit here.

He said that B.C. produces about 9,000 bales of hops yearly. Ontario produces several hundred bales a year. Remainder is imported from the United States.

The company operates a 447-acre field at Sumas, 60 miles southeast of Vancouver, said to be the third largest individual hop farm in the world. This farm has grown 3,000 bales in one year.

Picking has been partly mechanized. A machine, something like a cotton gin and operated by 18 men, is used. Mr. Jennings says this does the work of about 1,200 pickers.

OUR COMPLETE SHORT STORY—

Mrs. Harte's Boarder

Mr. Houseman Had Not Broken Any Laws. Or Had He? By SAMUEL CAMPBELL

MRS. HARTE had begun to suspect him the day after he rented her only vacant room in the attic; but she kept her feelings to herself. She had to be sure.

Phoebe Harte's large, rambling boarding house was a kind of landmark in Centreville. It was located within five minutes' walking distance of the business section of the town, the bus terminal, and the railroad station. When John Harte, her railroad engineer husband, was killed several years ago, Phoebe, a rather nervous and imaginative creature, decided to take in boarders rather than live in the big house alone. There were ten of them, mostly railroad men. Mr. Houseman made the eleventh. But he was different from the others.

When applying for the room, he told her that the nature of his work called for the comparative peace and quiet offered by a small town such as Centreville. Mrs. Harte didn't know what a philologist was, so he explained to her that he was doing valuable work for his university by translating Latin, Greek and Hebrew manuscripts.

When he walked over from the station that first day, carrying his briefcase, he possessed a scholarly attitude.

"He was undoubtedly a gentleman," Phoebe had said, "a man of culture. And what's more, he had money. He paid rent for two months in advance!"

But tonight, after boarding with Mrs. Harte for only one month, he had told her his work was finished and that he would leave in the morning. Phoebe was puzzled and a little frightened. Her star boarder looked perfectly harmless. He was always quite jovial at the dinner table. Sometimes he played cards with the men and told funny stories. But it was a most unusual incident which had occurred once each weekend since Mr. Houseman's arrival that

set Phoebe's nerves on edge. Tonight, she would muster up enough courage to follow Mr. Houseman and see where he went with the tiny brown-papered packages she had seen him take out, and perhaps learn something about the blood-stained handkerchiefs she had found in the waste paper basket.

The Centreville Gazette's headlines were not screaming about any fiendish murder or anything of the kind. Centreville was a lazy, dreamy place to live. Nothing ever happened here. But still, Mrs. Harte had a hunch.

At exactly a quarter to twelve, the same time as usual, she heard Mr. Houseman's soft tread coming down the stairs. When he had closed the front door softly behind him, she followed, keeping about half a block behind.

He went two blocks down, then cut over to Main Street. Centreville had gone to bed. The theatre marquee and the shop windows were dark. The broad expanse of pavement, wet with the drizzling rain, mirrored the red reflection of a lonely neon sign at the far end of the street—POOL ROOM.

Since this was the only place open, Phoebe's heart gave a bit of a jump. How silly and suspicious she had been. Of course! Mr. Houseman was going to play billiards. It would take his mind off his work. That was it! But her heart sank when he trudged on past the pool room and headed for the open highway.

The houses, as well as the stores, were thinning out quickly now as the hunter and the quarry left the town behind and were swallowed up by the darkness. On they went . . . over the level-crossing; past the canning factory; past the high school and the war memorial, and stopped only when Mr. Houseman reached the bridge over Miller's Creek.

Leaning against the concrete railing, he lit a cigar. Mrs. Harte had drawn close enough now to smell the familiar aroma. She watched him glance furtively around, then take a tiny, brown-papered package, about one inch by two inches, from his pocket and throw it into the deepest part of the river.

Nervous, sensitive Phoebe Harte cowered deeper into the shadows of the hedge as Mr. Houseman, puffing furiously on his cigar, made his way past her back to town. She would never know, unless she asked, what was in those packages; and why should she ask? After all, Mr. Houseman had not broken any laws. Or had he?

Daniel Houseman left the next morning and returned to his university, not knowing that someone had followed him on the last of his mysterious missions in the night.

Two days later the perplexed proprietress of Centreville's most popular boarding house received a letter in the mail:

"My Dear Mrs. Harte:

"I wish to thank you for being so kind to me during the past month. I enjoyed my stay in Centreville and accomplished a great deal of work . . . more than I expected to. However, there is one most annoying practice carried on by the boarders in your house to which I would like to direct your attention. Each week, approximately one dozen old razor blades are carelessly thrown into the waste paper basket in the bathroom. Might I suggest, in the interests of safety, that a proper container be placed on the premises for the adequate disposal of used blades?"

The first night I stayed in your house, I accidentally dropped the cap off my toothpaste tube into the basket. On retrieving the same, I cut my right index finger almost to the bone. I trust that you will not be offended in any way by this suggestion, as I hope to return to Centreville next summer. Yours respectfully,

"Daniel Houseman."

Kept His Secret

WEYBURN, Sask.—Highway Traffic Officer Don Jewitt didn't give away any secrets when he spoke to the Young Fellows' club recently on safety on the highways.

In a question period after his address, Mr. Jewitt was asked what his regular hours were, and also what his regular beats were.

The traffic officer has no regular hours or beats, at least that's what he told the prying club member who owns a car.

2919

NAMED COMMANDER—Wing Commander R. I. A. "Red" Smith, of Regina, has been named commanding officer of the newly formed 411 Reserve Fighter Squadron in Toronto. A 28-year-old law student at Osgoode Hall, he went overseas in early 1940, flew fighters out of Malta and England. During his first tour of operations he shot down five enemy aircraft and after returning to operational flying upon completion of a tour of instructional duties in northern Scotland, he brought his total to 13 enemy aircraft destroyed. He was awarded the Distinguished Flying Cross and Bar in recognition of his outstanding flying record and at the close of the war was commanding officer of 412 Squadron. He joined 401 Squadron in Montreal on his return from overseas and when he moved to Toronto to enroll at Osgoode Hall, he became a flight lieutenant in 400 City of Toronto Squadron.

WESTERN BRIEFS

Plan Mission

REGINA.—Lutherans in convention here agreed to apply \$55,500 to establishment of a mission in Saskatoon.

"Prank" Costs Boys \$25

CALGARY.—Two youths, John Cummings and Peter McCamon, were fined \$25 and costs for tampering with a police car. The pair admitted ripping out wires in the engine, while the car was parked near a high school.

Plant Expansion

VICTORIA, B.C.—A \$2,000,000 expansion programme which will increase output 50 per cent. started recently at the Bamberton plant of the British Columbia Cement company 18 miles from here. Current annual output is 1,350,000 barrels.

Honey May Go Up

TISDALE, Sask.—R. M. Pugh believes that honey prices may move up considerably before spring because of insufficient supply.

Borrow \$3,000,000

REGINA.—Hon. C. M. Fines, provincial treasurer, announced that the Saskatchewan government has arranged to borrow \$3,000,000 in United States funds to finance highway and telephone construction.

Starts 30th Year As Reeve

RAPID CITY, Man.—Roland Porter commenced his 42nd year as a council member, his 30th as reeve when the rural municipality of Saskatchewan held its 1951 inaugural here recently. He was elected first as a councillor in ward five in 1909 and in 1921 succeeded Thomas Wolstenholme as reeve. Mr. Porter will mark another anniversary Feb. 7—his 78th birthday.

TO OPEN BASE

The United States air force will open its sixth big base in Britain this March, the air ministry announced. The field is Sealand, Cheshire, 180 miles northwest of London.

WAKE UP YOUR
LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those mild, gentle Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 35¢ at any drugstore.

"Snow Plow Clubs" Keep Roads Open

PRINCE ALBERT, Sask.—"Snow Plow Clubs" are providing an answer to Northern Saskatchewan's perennial problem of blocked roads and meagre transportation.

Farmers and country residents first tackled the problem in earnest when they began to band together to keep roads open during the winter.

Clubs were formed, plows bought with funds donated by members. Now there are few roads in the Prince Albert area that are not kept open despite heavy snowfalls.

Although this winter's snowfall so far is heavier than usual, rural roads are passable.

A Prince Albert industry plays an important part in the improved conditions. A majority of the snowplows in operations in the region were made by the J. R. Leach & son Ltd. factory here. In three years the Leach factory has sold more than 1,000 plows in the province. Both are V type and rotary.

Municipalities vary as to methods or organization and financing for plows in many districts; whist drives, quilting bees and square dances are held throughout the winter to provide funds. Even the proceeds of summer picnics and parties go toward the winter plowing program.

INFANT INCUBATORS

Federal health grants have been allotted to buy 50 incubators for the care of premature infants in Alberta, the health department announced.

Think Right—Eat Right—Live Right

Record Price Paid For Raw Wool

PENDLETON, Ore.—The highest price ever paid for wool in Oregon, \$1.30 1/4 a pound, was received recently by Joe Pedro, Pilot Rock sheepman. Pedro sold around 15,000 pounds of wool to Portland brokers.

SELF-ICED
SPICE CAKE

Mix and sift 3 times, 2 1/4 c. once-sifted pastry flour (or 2 c. once-sifted hard-wheat flour), 2 1/2 tsp. Magic Baking Powder, 1/2 tsp. salt, 1 1/2 tsp. ground cinnamon, 1/4 tsp. each of ground cloves, ginger, allspice, nutmeg and mace; mix in 1/2 c. washed and dried seedless raisins and 1/4 c. chopped walnuts. Cream 3/4 c. butter or margarine and blend in 1 1/4 c. lightly-packed brown sugar; beat in 3 well-beaten egg yolks and 1/2 tsp. vanilla. Add dry ingredients to creamed mixture alternately with 3/4 c. milk and spread batter in 9" square pan, which has been greased and the bottom lined with greased paper. Beat stiff, not dry, 3 egg whites and a few grains salt; gradually beat in 1 c. lightly-packed brown sugar and spread over cake; sprinkle with 1/2 c. chopped walnuts; and bake in a rather slow oven, 325°, 1 1/4 to 1 1/2 hours; cover lightly with brown paper for last half hour.

FOR CANADIAN
UTILITIES LTD.
CUSTOMERS**

Radio reports by another company urging power curtailment in no way affects any customers of Canadian Utilities Limited. We have ample power to serve the 153 communities and 38 farm areas on our lines.

Actually the capacity of the generating plants, transmission and distribution systems is large enough to provide more than a comfortable margin of reserve.

There is plenty of Reddy Kilowatt power here — Use it for your convenience.

GOOD SEED for BETTER CROPS

Grain is not seed unless it is clean. You can be sure your own grain is seed by careful cleaning with your own machinery, or through a well equipped, properly operated seed cleaning plant. If you are buying seed accept nothing that is not graded.

Good seed, like good livestock, should have a pedigree behind it. If you do not plan to use registered seed for the whole farm you should at least use seed that has registered seed in its recent ancestry. You can do this by buying seed grown from registered seed, but the best method is to buy a few bushels each year and have a seed plot on your own farm where you can keep it pure.

It is good business to use registered seed of all grains, but for MALTING BARLEY, pure varieties are a "must". Get your seed now while stocks are available. Registered Montcalm and Olli Barley are available in sealed sacks from your elevator agent and from seed handling organizations.

B of M Publishes Budget Planning Booklet

To help people meet the problems of today's high cost of living, a bright little book, published by the Bank of Montreal, has just made its appearance. It tells a story of budget-planning—how to make the most of income while cutting down financial worries. The booklet, "Personal Planning for Successful Homemakers"—available at all B of M branches simply for the asking—has been tested before being put into general circulation.

Tried out on a limited basis at the B of M booth in last year's Canadian National Exhibition at Toronto, the Personal Planning idea drew inquiries from a host of visitors. Correspondence since received at the bank's head office indicates that it is helping a good many people to solve their financial problems.

That people find Personal Planning a stimulating experience appears clearly in almost all correspondence the bank has received on the subject. "This is the most important and exciting vent of the whole C.N.E.," one typical comment ran. I needed his advice very badly, and you have already helped to straighten out a quarter of our personal problems."

Another said, simply: "Every bride should have a copy of this book." Other characteristic remarks were: "up-to-date and practical for present living conditions"; "great prospects and deae for low-income-bracket families"; "this information came when most needed."

In contrast to budgeting, Personal planning takes the attitude that the budget is made for the individual, not vice versa. Thus, it takes into account not only rent, food, insurance and the like, but the Planner's aims and also his need to enjoy today.
